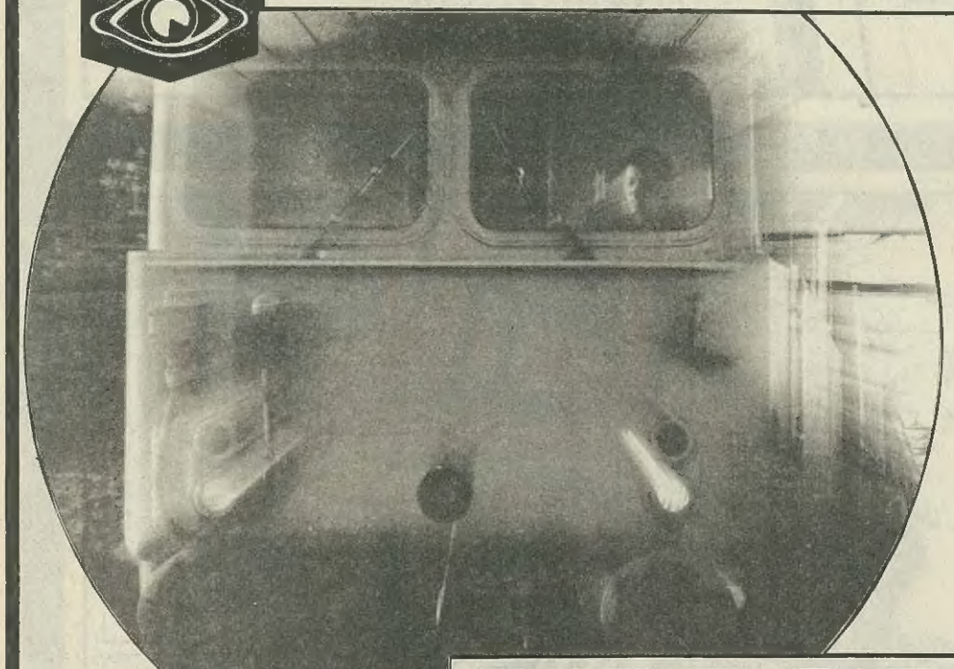
I-SPY AT 100 MPH-



An electric express travelling at 100 miles an hour taken head on.

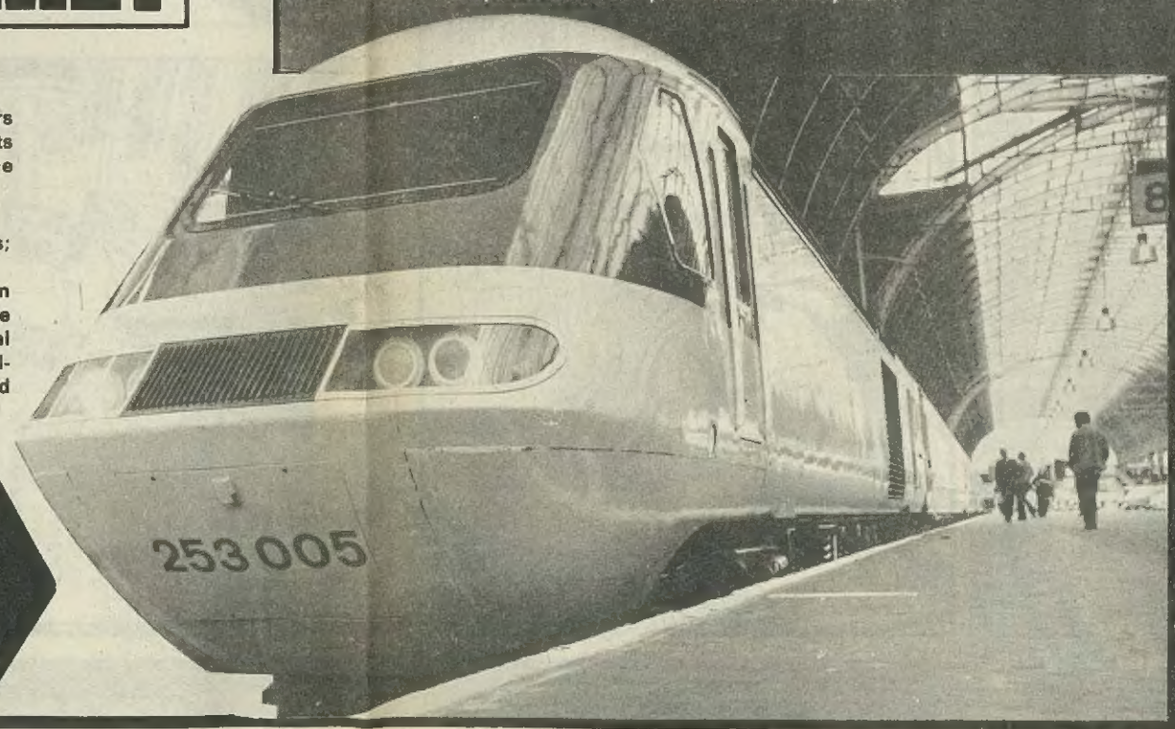
DRIVE ME!

This is the view you get if you are driving a Class 47 Diesel Electric loco, but you can see from the speedometer that the train is going at 90 miles an hour. The driver is holding the master control, to make the train go faster or slower. The small lever in front is a forward/reverse control.
On the left of the speedometer are the gauges which tell you the pressure in the vacuum brake system and warn you if there are any leaks.

QUICK! Before you jump out of the way — have you time to notice the wipers on the front windows? The coupling device on the left which connects power supplies between locos and coaches? The two white marker lights? If the train were going away the two red lights above them would be on . . .

In this country there are over 11,200 miles of railway track, 2,800 stations; 3,800 locomotives and 17,400 carriages.

Our railways are changing all the time. Money is being spent continuously on modernisation so sometimes you will see an old bit of the railway side by side with a new bit. At the National Railway Museum in York you can see the original experimental train which British Rail used — their first 150mph APT — Advanced Passenger Train. You can see it from the mainline between London and Edinburgh.



British Rail's High Speed Train can travel at 125mph, although in trials the HST has touched 143mph.
The trains have two power cars, one at each end, with a 2,250 horse power diesel engine. The trains are painted yellow with a deep black band down each side and have five passenger coaches and two catering ones — all air conditioned, carpeted, sound insulated and double glazed. There is no space allowed for a headcode. They are being phased out.

I-SPY

There are two I-SPY books to help you — *I-SPY On a Train Journey* and *I-SPY Trains*. There are many other I-SPY books, too. They are 20p each.

Dr WHO

On the Planet Earthos, Kling Warriors have taken Doctor Who's Tardis to a mysterious temple. Meanwhile, the Doctor and his companion Petra are captured and sent to a slave colony. There, Braggens — Petra's people — are forced to seek a strange crystal. At this time, Grask, a Kling commander, arrives to make a grim announcement . . .

POLICE

THE EMPEROR DEMANDS THE STRANGER BE EXECUTED... IMMEDIATELY!

HE WORKS WITH OTHERS IN THE SWAMP! WE WILL FETCH HIM!

BUT

LET'S HOPE THEY DON'T LOOK FOR US UNDER THEIR VERY NOSES!

THEY WILL DISCOVER WE ARE MISSING ANY MOMENT...

SURE ENOUGH...

THE STRANGE ONE AND A BRAGGEN DOG HAVE GONE!

THEY CANNOT GET FAR IN THEIR CHAINS! HUNT THEM DOWN!

WHAT'S IN THAT CART?

A CRYSTAL LOAD FOR THE TEMPLE... IT IS DUE TO BE DELIVERED...

THEN DELIVER IT, FOOL!

IMMEDIATELY, COMMANDER!

AS I THOUGHT... ALL KLING HELMETS CONTAIN THE CRYSTAL YOUR PEOPLE ARE FORCED TO SEARCH FOR IN THE SWAMPS!

IT'S PART OF AN ADVANCED RECEIVER... TO CONTROL THE MIND OF WHOEVER WEARS THIS HELMET. I'LL BREAK THE CIRCUIT...

BUT WHY, DOCTOR?

AND.

SO FAR SO GOOD. . NOW TO DEAL WITH OUR FRIEND, HERE.

MOVE CAUTIOUSLY... THE STORN-STICK HE WEARS CAN PARALYSE OR BURN.

OUR LUCK'S HOLDING... JUST A BIT LONGER AND WE'RE CLEAR!

...THERE'S NOT MUCH TIME IF WE'RE TO GET INTO THE TEMPLE. . AND FIND THE TARDIS!

THAT IS IMPOSSIBLE... WHILE WE REMAIN CHAINED!

NNNNGH!

VERY USEFUL THINGS THESE CHAINS!

SOON

TRULY IT IS MAGIC TO CUT THROUGH MY CHAINS!

THE KLING STIRS, DOCTOR!

DON'T LOOK... OR OPEN YOUR EYES, PETRA. THIS CUTTING BEAM IS INTENSE ENOUGH TO BLIND!

WE WON'T... THANKS TO MY TACTRION TORCH... LIKE A SUPER-POWERFUL LASER BEAM! THE KLINGS FORGOT TO SEARCH ME!

COVER HIM... WHILE WE REMOVE HIS TUNIC!

BEFORE LONG, THE CART REACHES ITS DESTINATION...

KEEP THE CHAINS ROUND YOUR WRISTS, PETRA. YOU'RE SUPPOSED TO BE MY PRISONER...

IF YOUR DISGUISE WORKS, DOCTOR... OTHERWISE WE ARE DOOMED!

THE EDITOR'S Letterbox

Dear Editor,
Out of all the detective and police stories on television, I remain a great fan of Hawaii Five-O, and in particular Steve McGarrett, played by Jack Lord. Can you tell me something about McGarrett, please?

Andrea Collins,
Luton.

Steve McGarrett is 6ft 2in, has brown hair, and blue eyes. He was born on December 30th, 1930, in Brooklyn, New York. He has two homes, one in Hawaii, the other in Los Angeles

Dear Editor,
I am writing to you from Christmas Island in the Indian Ocean. I am eleven and have been on the island for three years. We come from Perth in Western Australia. I read a lot of comics because there is no television on the island. The latest TV COMICs we get here are always long out of date, and we buy them from the Chinese shops on the island, who get them from Singapore My hobbies are sailing, fishing and swimming.

Maria Winterson,
Christmas Island.

Thank you for writing to us from so far away, Maria. I'm certain many of our readers envy you your fabulous homeland — even though there are no recent TV COMICs or television!

☆☆☆☆☆☆☆☆☆☆☆☆☆☆☆☆☆☆☆☆

Dear Editor,
My name is Linda. I read TV COMIC every week and like Tom and Jerry, Mighty Moth and Pink Panther the best. I normally read my comic at night when I am in bed.
Linda Sinclair,
Scarborough, Yorks.

☆☆☆☆☆☆☆☆☆☆☆☆☆☆☆☆☆☆☆☆

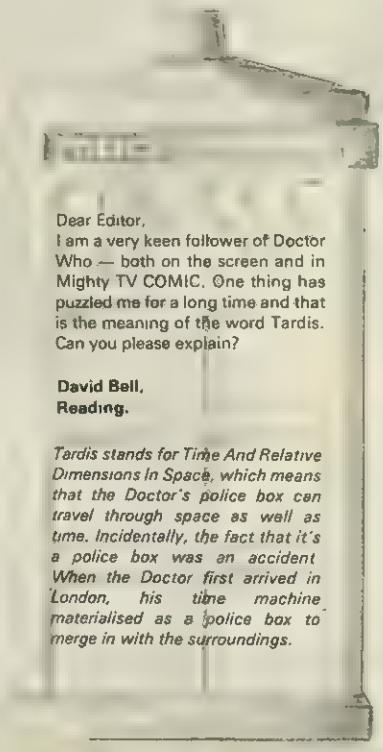
Dear Editor,
One day father decided to wallpaper my room. He mixed the paste and finished the job quickly. After having a snack he went to look at the wallpapering he had done. To his surprise, the wallpaper was hanging off the walls. He turned around to take a closer look at the label to find he had used wallpaper *remover!*

Helen Kinsey,
Leicester.

Dear Editor,
My name is Alison Bailey and I come from Eton Wick near Windsor. I am seven years old. My hobby is stamp collecting and I have 130 stamps. I got the idea from my brother who started the hobby a year ago. My favourite pop group is the Wombles. I already have three toy Wombles. My favourites in Mighty TV COMIC are Basil Brush and Bugs Bunny.

Alison Bailey, Windsor.

What an interesting hobby you have, Alison Together, you and your brother should have a really good collection in a couple of years time. I expect Windsor is a good place to be in this Silver Jubilee Year, so enjoy yourselves!



Dear Editor,
I am a very keen follower of Doctor Who — both on the screen and in Mighty TV COMIC. One thing has puzzled me for a long time and that is the meaning of the word Tardis. Can you please explain?

David Bell,
Reading.

Tardis stands for Time And Relative Dimensions In Space, which means that the Doctor's police box can travel through space as well as time. Incidentally, the fact that it's a police box was an accident When the Doctor first arrived in London, his time machine materialised as a police box to merge in with the surroundings.

Dear Editor,
My name is Kathryn Axton and I am nine years old. I like Barney Bear the best in Mighty TV COMIC. I like keeping my pets — Smokey Joe, a rabbit, Patch and Peanuts, guinea pigs; and Ginny, the cat. I also like a lot of sports, especially swimming I have a certificate for a length breast stroke. I play the guitar and the recorder and like music a lot. I have a radio and like listening to the Top 20.
My other hobbies are needlework and art. I have made a cushion and lots more things. I also like reading and I have lots of Enid Blyton books

Kathryn Axton,
Dorset

☆☆☆☆☆☆☆☆☆☆☆☆☆☆☆☆☆☆☆☆

Dear Editor,
I like Mighty TV COMIC very much and am sorry that you've stopped publishing a letters' page because I liked to read it

Sarah O'Neill, Sheffield

As you can see, Sarah, things are now back as they used to be and you're a star of your favourite page!

☆☆☆☆☆☆☆☆☆☆☆☆☆☆☆☆☆☆☆☆

Dear Editor,
My name is Karen Beasley and I would like to tell you about our two tortoises — Speedy and Freeda. One is a girl and the other, a boy. They are always escaping, so we have had to put a fence all around the grass in the garden. I am eleven.

Karen Beasley, Folkestone.

Dear 'Mighty' Readers,
We love to receive letters and photographs. We are only sorry everything can't be published! There's a £1 prize for anything that is used in Mighty TV COMIC.

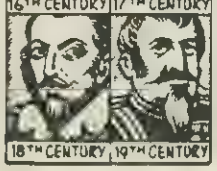
DID YOU KNOW ???

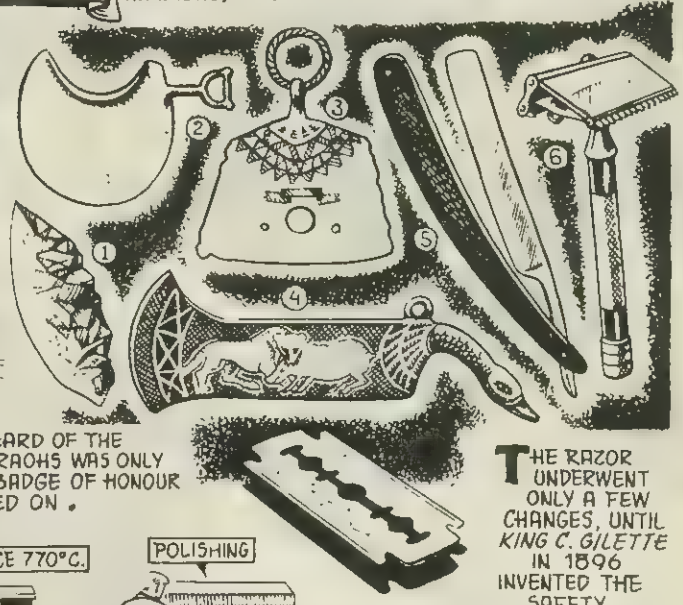
THE RAZOR

IN THE COURSE OF 5000 YEARS THE BEARD CHANGED ITS FORM USUALLY MANY TIMES IN A CENTURY, INFLUENCED BY FASHION, HYGIENE, RELIGION AND ------- POLITICS.

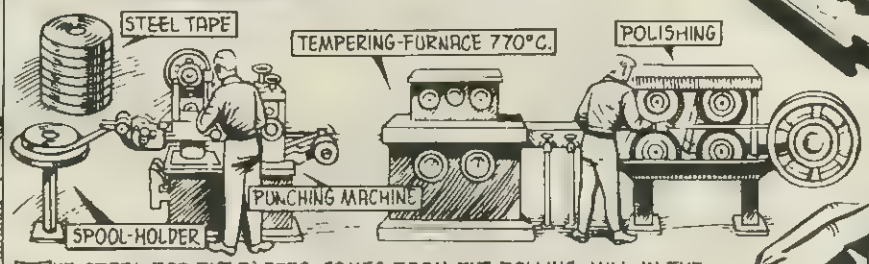
THE OLDEST RAZOR WAS A FRAGMENT OF *OBSIDIAN*(1). LATER ON BRONZE KNIVES WERE USED (2,3,4). IT IS SAID THAT *SCIPIO AFRICANUS*, THE CONQUEROR OF *HANNIBAL*, WAS THE FIRST TO USE STEEL RAZOR BLADES.



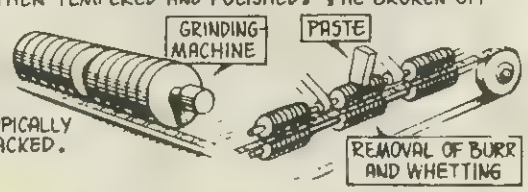
THE BEARD OF THE PHARAOHS WAS ONLY A ROYAL BADGE OF HONOUR TIED ON.



THE RAZOR UNDERWENT ONLY A FEW CHANGES, UNTIL *KING C. GILETTE* IN 1896 INVENTED THE SAFETY RAZOR.



THE STEEL FOR THE BLADES COMES FROM THE ROLLING-MILL IN THE FORM OF TAPES. IN THE TAPE HOLES AND BREAKLINES ARE PUNCHED; IT IS THEN TEMPERED AND POLISHED. THE BROKEN-OFF BLADES, STAMPED AND GLAZED ARE SHARPENED, THE BURR IS REMOVED, THEY ARE WHETTED, MICROSCOPICALLY CONTROLLED AND PACKED.



NOWADAYS THE ELECTRIC RAZOR IS IN COMMON USE TOO.
